The Korean President beenme choked with emotion as he tried to express "the gratitude of the Korean people for you gallant Marines and all other United Nations troops who have fought and suffered for us."

"What would happen to us," the President asked, "if you were not here?"

The ceremony was held in a South Korean potato patch taken over by the brigade as a bivouse area and was highfighted by the presentation of a second Oak Leaf Cluster to thrice wounded Master-Sergeant Ernest L. Defazio, of Athol, Massachusetts. Defazio was wounded twice previously in the Pacific war and received his third wound a week ago.

San Francisco, August 28. The United States Government formally charged today the freighter Mary Luckenbach was operated in a "careless, reckless and negligent" manner when it rammed and sank the hospital ship Benevolence.

Government attorneys, in surprise move, filed a US\$14,000, 000 damage suit against the Luckenbach Steamship Company, They swung into action while two investigutions were still in progress, seeking to place the blume for the disaster on Friday night in which at least 18 persons were killed. Thirteen persons were unaccounted for,

Basing their action on statements made by some of the 492 survivors of the marine disaster. the Federal attorneys contended that the Mary Luckenbach was making too much speed and moving up the wrong side of the channel in a pea-soup fog. They also claimed she was not using her radar when she knifed into the port side of the great white hospital slip four miles from the Golden - Gate, ,

In the suit, filed in the Federal District Court, the attorneys said the Mary" Luckenbach's enpinion L.C. Smith, was guilty of "careless. reckless and negligent navigation and operation."--United Press.

Lake Success, August 28. Jacob Malik, Russian delogate to the United Nations and President of the Security Council for (August, tonight summoned the Security Council to meet on Tuesday and put the explosive question of Formesa on its agonda.

This was disclosed after a scoret meeting of the 11-nation Council, in which Mr. Malik tried to read out of the official record all actions which the group had taken during the 29-week Boylet boyoott which ended on August 1.

Mr. Malik's action in placing the issue of Formesa officially on the Council's order of business was a cortain indication, in the minds of most observers, that Rusein would damand that the United Nations order the United States to withdraw its Beventh Fleet from Formosan waters .-- United Press.

PRESIDENT'S OUTLINE OF U.S. POLICY

Washington, August 28. President Truman has written to Mr. Warren Austin, chief United States delegate to the United Nations, outlining American policy on Formosa, according to the White House today. The text is as follows: "As I told you on the telephone this morning I want to congratulate you on your able presentation of the views of the United States Government in the Security Council of the United Nations from the first onset of the aggression against the the Republic of Korea.

course of the proceedings you tegrity of China, Only the Union have represented this Government with great effectiveness and in full accordance with

my directions. "The letter which you addressed to the Secretary-General of the United Nations on August 25 on

the subject of Formose admirably sums up the fundamental position of this Government as it had been stated by me on June 27 and in my message to Congress on July 19. You have clearly set forth in that letter the heart and essence of the problem. You have faithfully set down my views as they were then and as they are now.

"That there be no misunderof the Government of the United States with respect to Formosa, it may be useful to repeat here the seven fundamental points, which letter to Mr. Lie.

KREMLIN EXPECTED TO SHOW ITS HAND KOREA DISPUTE

Washington, August 29. State Department officials believe that the Korean struggle has now entered the critical period they have long expected in which the Kromlin

must disclose its real intentions for the future. . This belief, officials said, is borne out both by American military estimates that the battle line is fairly well stabilised and by intelligence reports indicating a massing of two Chinese Communist armies on the Manchurian-Korean border.

"PRAVDA" VIEW OF AMERICA

London, August 28. A "Pravda" article by its New York correspondents, Rassadin and Filippov, said today that the "process of turning th State has been especially intensified in connection with American aggression in Korea". The article, quoted in London by Tass, the Soviet news agency. that "more than 200 political arrests have been made first shot of the American inter-

ventionists was fired in Korea". "An especially dirty role in participants of the anti-Fascist inovement and all peace supporters in the United States, is played by the so-called 'Un-American Committee' of House of Representatives", the

article said. "Lately," it continued, "57 people have been imprisoned on a charge of contempt of Congress'. Police and court agencies literally hunt down leaders and active members of progressive public

organisations. "Racism is zealously cultivated. At present 23 Negroes face death on framed charges.

"The secret police (FBI) together with other police Gestapo agencies have established comsurveillance over the American people. The Press reports that special files of the cases 60,000,000 Americans have been collected in the huge sixstorey FBI building in Washington."--Reuter.

The significance of the stiffening battlefront, diplomats said, is that the men in the Kremlin must now know beyond question that North Korean Red forces unaided by Russian or Chinese troops are doomed to defeat. They face the prospect that in a relatively few months United Nations armies may be driving into North Korea.

The reported Chinese United States into a police movements is regarded here as an indication that the Communists | have decided what their next major move is to be and are getting set to make it.

It does not necessarily mean they will enter the war. At one extreme, a fateful new Red step might result in building a barrier Korean war from spilling over | pipeline from the Kirkum oilinto Manchuria.

Occupation of North Korca ?

First, and many officials think most probably, they may occupy Northern Korea in an affort to prevent UN forces from crossing the 38th Parallel and moving in close to Manchuria and the Russian port of Viadivostock:

Second, being confronted with the prospect of a North Korean defeat, they may make an effort to settle the fighting in some manner acceptable both to Russia and to the West. The biggest pressure in favour of this is probably propaganda pressure. Alien Communist occupation of Northern Korea, splitting the country, would show up badly against Communist claims of interest in

-Anxious-to-avoid general war

Most officials here believe that Russians are still anxious to avold moves which might lead to a general war.

There is also constant speculation in Washington that the Chinese Communists, with economic and political troubles of their own, must be resisting any Soviet pressure to get them to take on the burden of the fight.

Hence official Washington general believes that the Russians and the Chinese will take some measure short of open belligerency but designed to keep United States forces from moving too close to Manchuria and the Russian Maritime Provinces.

The most obvious way to do that is to re-occupy Northern Such a development greatly complicate the question of how to solve the Korean problem permanently but would appear to minimise the dangers of more general fighting at this time.—Associated Press.

CHARGES NORTH KOREA

Lake Success, August 28. The Communist government of North Korea today charged that American bombers had nearly 6,000 Korean civillans in "atrocity" raids.

The propaganda |blast was recelved at United Nations Headquarters on the heels of a strong protest by Communist China against "United States air aggression" in the Chinese territory of Manchuria.

The reports arrived as the members of the Security Council met in a secret session to discus: the review of the Council's wa since July 1949, which must be presented to the General Assembly next month.

The North Korean accusation was highlighted by the claim th U.S. Air Force bombers had used one-ton bombs in their strategle raios. The report, signed by the North Korean Foreign Minister, Pak Neung Young, said onetonners were among the misslier. dropped "on residential areas of Vonsan" in July

Air Force reports have indicated the .500-pound bomb was the largest employed in Korea.

The five went on trial in a Belgrade court charged with acting as agents for the Russian intelligence service.

Tanjug, the official Yugoslav news agency, in a report distributed in London, said that the Russian's name is Mihail Karageorgijev.

It identified the other defendants as Rista Ilic, assistant professor of engineering at Belgrade University; Ljubica Ilic, a school teacher; Djordje Ille, a pharmacy student, and Slavko Krabaljevic, employed in the General Directorate of the Yugoslav Federal Metal Industry.

Tanjug said the prosecution declared that Rista Ille got in touch with a Russian named Popov, Secretary of the Soviet Embassy in January.

HK RESTRICTIONS ON EXPORTS TO CHINA

London, August 28. the advice of the British Government, the authorities in Hong Kong are to take additional safeguards against the export of strategic war materials to Communist China, official sources said today.

The Hong Kong Government was said to have already taken steps toward restricting the export of materials which were classified as "directly for war use" and it was undertood that these restrictions were to be widened considerably to include some 200 items.

Mr. Winston Churchill's disclosure that Britain has been supplying machine tools for war purposes to Russia has spotlighted Britain's efforts to promote trade with Communist China.

During the pust six months Communist agents were known to be in Hong Kong buying strategic commodities and machinery much of which was said to be suitable war production, including machine tools and metal working

Official quarters said the tightening up of the licensing system for exports from Hong Kong to Communist China should ensure that commodities classified as "strategic" would reach Communist China in such quantities as would eliminate the danger of their use as war potential.

VITAL LANCS AGAINST

London, August 28. all-important County Championship game between Surrey and Lancashire is favouring Surrey, who collected the vital four points for a first innings lead today.

As there may not be a definite result with only one day remaining, those points would have been invaluable to Lancashire, who finish their programme with this game, whereas Surrey have one match to play and, even with no result tomorrow, can still tie for the Championship by winning that final fixture.

Race for Singapore Trophy to be sailed this afternoon

By "MOONRAKER"

Today being Liberation Day, a race for the Singapore Trophy is to be sailed in Dinghies for the Cup presented by members of the Royal Singapore Yacht Club who recently raced in Hong Kong.

The race is timed to start at 3 p.m.

Redwing races seen for quite while took place on Saturday afternoon.

This started in a very light Lreeze and Worsley made un excellent start in the Gunner Boat, For most of the first lap Corbett led the way, closely followed by Colonel Brown and Howell but Mallorie, who was some distance behind, made up to third pince by the end of the lap.

Overtaken on the beat In the course 'lot the second lan, the wind freshened very

slightly and Howell gained firs! place for some time, but was overtaken by Furrer on the beat. These two subsequently became so engaged in a luffing mater that Miss Pat Loseby

slipped straight through them to a very good win-Sunday was given up to cruising and there were no organised 3rd Mallory ruces. Many boats set forth towurds Lyemun with a streng ebb tide and three Stars and a number of Dinghles anchored shortly after midday at at Junk Bay. Although it was expected that

the trip back would be lengthy due to lack of wind, conditions improved round about 5 p.m., when a strong breeze sprang up. This - preceded a rainstorm which covered Hong Kong and most boats eventually made good time on the beat home.

Conspicuous gallantry It was about lunch time on Sunday when Paul Dalko wan solling Roosalka outside Futimun Pass. His hat blew off into the sea and his boat boy displayed conspicuous gallantry in diving over the side after it. By the time he was hauled aboard again, the Stockport boat boy had successfully spolled the tiffin of two large sharks by beating them to it by a very Bristol R. short head.
